JOURNAL OF APPLIED GEOPHYSICS

Contents Volume 36, 1996/1997

Research papers

3-D tomographic imaging of anomalous stress conditions in a deep US gold mine
M.J. Friedel, D.F. Scott, M.J. Jackson, T.J. Williams and S.M. Killen 1

GPR data processing for 3D fracture mapping in a marble quarry (Thassos, Greece)
G. Grandjean and J.C. Gourry 19

A new method of geoelectrical prospecting by vertical electric current soundings
V. Mogilatov and B. Balashov 31

Ground-penetrating radar (GPR) for imaging stratigraphic features and groundwater in sand dunes
Z. Harari 43

The influence of local irregularities on the propagation of Love waves
T. Yu, L. Dresen and H. Rüter 53

Seismic attenuation and velocities of P- and S-waves in the German KTB area
X.-P. Li and S. Richwalski 67

A TLM model of a borehole electromagnetic sensing system
Y. Zhang, C. Liu and L.C. Shen 77

Shape and depth solutions from moving average residual gravity anomalies
E.M. Abdelrahman and T.M. El-Araby 89

Self potential anomaly over a sulphide conductor tested for use as a current source
O.B. Lile 97

Rock magnetic properties of iron ores and host rocks from the Peña Colorada mining district, western Mexico
L. Alva-Valdivia, D.J. Dunlop and J. Urrutia-Fucugauchi 105

A new procedure to perform differential underground gravity measurements
G. Ranieri and L. Sambuelli 123

Calculation of gravity anomalies of 3D sources using drillhole density data
T. Ruotoistenmäki 131

A modified Hilbert transform and its application to self potential interpretation
N. Sundararajan and Y. Srinivas 137

Short Note

A supplement to 'A study of the design of inclined wellbores with regard to both mechanical stability and fracture intersection'
S. Zhou, R. Hillis and M. Sandiford 145

Discussion

Discussion on "an iterative least-squares approach to depth determination from residual magnetic anomalies due to thin dikes"
H.V. Ram Babu 149

Reply by the authors to Ram Babu
E.M. Abdelrahman and S.M. Sharafeldin 153

Book review 155

Research Papers

Site effects in Mexico City: Constraints from surface wave inversion of shallow refraction data
J. Ramos-Martínez, F.J. Chávez-García, E. Romero-Jiménez, J.L. Rodríguez-Zúñiga and J.M. Gómez-González 157

Two case studies of the determination of parameters of urban waste dumps
E. Cardarelli and M. Bernabini 167
Magnetic interpretation of two-dimensional dikes using integration-nomograms
İ. Kara 175
Relative performance of focused and unfocused devices in a two-dimensional borehole environment
K.K. Roy and D.J. Dutta 181
Assessment of hydrogeological conditions in basement aquifers of the Precambrian Oban massif, southeastern Nigeria
A.E. Edet and C.S. Okereke 195
Shortcomings in the determination of regional fields by polynomial fitting: A simple solution
S.B. Ojo and R. Kangkolo 205

Discussion
Comment on "An interpretation of the MAGSAT anomalies of Central Europe" by Taylor and Ravat
R. Pucher and T. Wonik 213
Reply to comments by R. Pucher and T. Wonik
P.T. Taylor and D. Ravat 217

Book review 221
